Roma Plough Day

Roma Historical Precincts Inc put on another great plough day this year. There was a good roll up of old cars on display but the tractors certainly took everyone captive with the tractor pull adding to the excitement of the event. Three of our club members got involved in the action having the opportunity to share their love of tractors as well as old cars.

Tractor: 1947 TEA Ferguson
Owner: John Ey
History: Purchased 43 years ago for $500. It was re-built and is used at least once a week for odd jobs around the place and comes in very handing for slashing.

Winner of the smallest tractor.

Tractor: 1966 Case 1030 (110 horse power)
Owner: Brett Proud
History: Purchased from Bill Henzel in 2001 and is used mostly for front end loader work.

Winner of the Ultra Local Tractor Pull

Tractor: 1974 White 2270 (same as the Minneapolis-Moline G1355)
Owner: Luke Huntly
History: I purchased the tractor from Moree (NSW) in 2009 with the intention to do it up as a restoration project, as I purchased it with a gear box problem, but was drivable. After finding out its power it was decided that it could run a mower conditioner, so the gear box problem was fixed and the tractor was put to work, with only a 12 volt fan blowing hot air around as the air conditioner. After a couple of years a bearing failed, so while the cabin was off to rectify the fault I decided to fix the cabin and air conditioner up properly, 12 months later it was finally back together. Trouble is that's as far as the prettying up work has gone (as you can tell!, the rest of the tractor needs painting). The tractor is still used mainly for hay making and a few odd farm jobs.

Winner of the Local Tractor Pull and the Biggest Tractor

Flags Fly High for the Wallumbilla Ute, Car & Motorbike Show
